DESTROYING BRIDGES.

Strikers in Ohio and Alabama Adopt Desperate Measures.

A COMPROMISE AT COLUMBUS

The Conference Reaches an Agreement to Resume Work on Monday—Joint Convention of Central Pennsylvania Operators and Workers.

COLUMBUS, O., June 11.—The conference of miners and operators here succeeded in reaching an agreement at the joint conference last night the agreement was ratified. A. A. Adams, president of the Ohio miners, who was a member of the scale committee, refused to sign the agreement. The settlement however is final.

The scale agreed upon is as follows: Pittsburg thin vein 55 cents; thick vein 10½ cents. Hocking valley 70 cents. Indiana bituminous 70 cents; Island run block, 70 cents; Streator 70 cents; 67½ cents for summer and 75 cents for winter. Bloomington Ill. 67½ cents for summer and 85 cents for winter. La Salle and Spring Valley Ill. 67½ cents for summer and 85 cents for winter. Other sections in northern Illinois, Iowa and Missouri prices relative to the above. Coal in Pittsburg district going east to Baltimore rate, per the same mining price as that paid by the Pennsylvania Gas and Westmoreland Coal companies.

The scale of prices will go in effect and bind both parties thereto beginning June 18, 1894 and continuing until May 1, 1895 provided that the scale for the Pittsburg districts shall be generally recognized and observed. The operators and miners shall co-operate in their efforts to secure a general observance of the scale and if during the period covered by this agreement a general recognition of the prices cannot be secured either party may call a meeting of the joint board of arbitration and determine whether the agreement has been sufficiently complied with to warrant its continuance.

PITTSBURG, June 12.—Interviews with a number of coal operators in the Pittsburg district shows a feeling among them that a general resumption will take place next week on the basis of the compromise effected at Columbus.

DESPERATE ALABAMA MINERS

Charged with Destroying Railroad Bridges by Dynamite and Fire.

BIRMINGHAM, June 12.—Three companies of the First regiment have been sent to Blue Creek on information that a large number of armed men were known to have massed near that point for the purpose of going to China Creek bridge on the Birmingham Mineral road and blowing that bridge up with dynamite. Up to this hour nothing has been heard of the troops.

Another bridge across Chickasaw creek on the main line of the Kansas City Memphis and Birmingham was almost entirely destroyed with dynamite. The occurred after midnight. No one had passed over. The entire abutment of one end was blown away.

The track walker of the Kansas City Memphis and Birmingham road at Carbon Hill found a trestle two miles beyond that point on fire. The trestle is 175 feet long and was on fire at both ends. Five bents of this structure were destroyed. Of course all these bridges burning are charged to the miners whether guilty or not. Desperation is depicted on the countenance of many of the miners, and it is not unlikely that many of their families are in desperate circumstances. Negroes are plentiful and are being employed in the several mines and it looks as if the strikers will not have any offers from those who own and operate mines in this district.

CONFERENCE AT ALTOONA

Employers and Employed of Central Pennsylvania Discussing Rates.

ALTOONA, June 12.—Henry Berwind, of the Berwind White Coal company, with the committee of the central Pennsylvania coal operators appointed to meet their striking employes, arrived in this city this morning from Philadelphia, in response to a telegram from District President T. A. Bradley of the United Mine Workers association, and the representatives of employers and employed are now in secret session. Hopes are entertained that the conference will settle the troubles, as the message of President Bradley is said to have been couched in more conciliating terms than former communications, and the fact that the operators are asked to meet the strikers of central Pennsylvania does away with their objections, previously expressed, against outside interference.

The Berwind White Coal company is making extensive preparations to resume work at their mines, whatever may be the result of the conference. The company's mine at Hornia was started yesterday with 200 workmen and the presence of 200 coal and iron police was sufficient to deter the strikers from making any hostile demonstration.

Troops Must Not Guard Miners.

CRIPPLE CREEK, Colo., June 12.—The deputies broke camp and started for Colorado Springs, in accordance with the agreement with General Brooks and Sheriff Bowers. The mines will now be reopened, the mine owners paying $4 for eight hours. The agreement made between General Brooks and Sheriff Bowers does not meet with Governor Waite's approval in all respects. The governor wired Adjutant General Barnett that the troops must not be used as guards at the mines, that receipts must be given the miners for the arms taken from them, and that not more than twenty five miners must be arrested.

Quiet at Punxsutawney.

PUNXSUTAWNEY, Pa., June 12.—Everything is quiet here. The guards are at their posts around the mines. At this place and just below Clayville there were 100 miners that came in on Saturday and went to work yesterday. The guards will not allow any one to go in among the men, nor will they allow crowds to congregate on the public road near the company's works. The cooler headed miners and the citizens of the surrounding towns are doing all they can to prevent an outbreak. Should it come there will be sad work as the guards are in a revive and can sweep the hillsides in all directions.

An Unsatisfactory Conference.

PomEROY, O., June 12.—The conference of the miners and operators here left matters in worse shape than before. Forty delegates were in attendance representing the eighteen mines in the district, but only the operators from the Ohio side appeared. They refused to vote for West Virginia operators. The miners made a proposition of mining for .½ cents per bushel an advance of one-quarter of a cent over the rate. The operators refused to consider the proposition, and left the conference without making an offer.

Kidnaped Workers Rescued.

CONNELLSVILLE, Pa., June 12.—The four workmen captured by the strikers on Sunday were discovered by deputy sheriffs yesterday in a camp of the strikers near Kyle and their release was effected without a conflict. The men were in dense of rough treatment by which they were seriously injured. They were brought to Connellsville and quarters given to the strikers who had torn up the tracks. The man killed in Sunday's fight was a Hungarian named Mike Antonio Stefanchick.

The Operators Meet.

PITTSBURG, June 12.—Especially important matters of the Pittsburg and Pittsburg district are expected to come before the meeting of the operators of Pittsburg. Large gains were made in the number of miners who went to work yesterday. The more conservative operators think the backbone of the strike is broken and the conference tomorrow this will appear to be the case. It is not thought the strikers will give up the fight without violence however and the situation here may grow interesting in a day or so.

The Other Side of the Story.

CONNELLSVILLE, Pa., June 12.—The strikers' side of the story of the Lemont killing differs materially from that told by the deputies. They say the deputies were going through town asking for the four kidnaped workmen and were being served by women. John McNeal, who was killed was shot in the back while in the rear yard. Stephen Corbash and George Rosenchick were also at their homes when shot. The strikers were not armed and not a shot was fired by them.

Dynamite on a Railroad Bridge.

WHEELING CREEK, O., June 12.—Two men were observed acting in a very suspicious manner at the Wheeling Creek bridge of the Cleveland Lorain and Wheeling road. On the approach of two soldiers belonging to the Second Ohio regiment the men fled. An examination disclosed the fact that a dynamite bomb had been so placed that a train passing would have exploded the bomb and destroyed the bridge and wrecked the train.

Fired a Trestle Near Midvale, O.

MIDVALE, O., June 12.—Miners fired a trestle four miles north of the station yesterday as it stopped a N. Y. train. They forcible prevented repairs to the trestle. The guards were covered by revolvers. One shot was fired by the strikers during the forenoon and hole. Passenger train No. 8, carrying mail got to the bridge just after the fire. It backed to Uhrichsville.

Settled by Compromise.

HAZLETON, Pa., June 12.—The strike among the anthracite coal miners at Silverbrook mine has been settled by the operators agreeing to an advance of from five to ten cents a ton, in wages. This is considered a fair compromise the miners not getting the sum demanded. This was the only strike in the Pennsylvania anthracite coal region.

Indiana Troops Recalled.

INDIANAPOLIS, June 12.—Governor Matthews ordered four companies home from Sullivan and Farmersburg. There will be eight companies on guard there until the conditions change. Citizens of Shelburn have renewed their pledges to keep order in that vicinity and no troops will be on duty there.

Miners Encamped Near Marion Ills.

MARION, Ills., June 12.—About 300 miners from Carterville have gone into camp in this city, awaiting the outcome of the cases of twenty miners who are being tried for offenses growing out of the strike at Cedarville. They have tents and provisions with them.

Bridge Destroyed by Dynamite.

WELLSTON, O., June 12.—A trestle bridge on the Wheeling and Lake Erie railroad located at East Greenville mine, five miles northwest of Massillon, was blown up with giant powder, and the ruins then burned. The road is now blocked.

Engineer Barr's Murderers on Trial.

BRAZIL, June 12.—The trial of the fourteen strikers charged with murdering Engineer Barr on the Vandalia last Tuesday was begun today. All the accused gave bail, and over $300 has been raised by subscription for their defence.

Quiet at Hogg's Run.

CHARLESTON, W. Va., June 12.—Telegrams received by the governor from Hogg's Run say that everything is quiet today. Trains of coal are moving without any opposition.

Facts Worth Knowing.

In all diseases of the nasal mucous membrane the remedy used must be non-irritating. Nothing satisfactory can be accomplished with douches, snuff, powders or astringents, because they are irritating, do not thoroughly reach the affected surfaces and should be abandoned as worse than failures. A multitude of persons who had for years borne all the worry and pain that catarrh can inflict testify to radical and permanent cures wrought by Ely's Cream Balm. Your druggist has it.

INHUMAN ILLINOIS PARENTS

Indicted for Having Starved a Paralytic Son to Death.

CARTHAGE, Ills., June 12.—Mr. and Mrs. John Leffler wealthy residents of this county have been arrested and indicted charged with having starved their son to death. John Leffler is 70 years old and his wife is the second one a young and rather prepossessing.

Leffler had a son Henry by a former wife and he was a helpless paralytic. The boy had been at Iowa some time but came back home. This displeased the Lefflers, who it is charged began to starve the young man. A neighboring woman roused her friends and a call was made on the Lefflers. Although admittance was refused to the house, an entrance was effected and Henry Leffler was found lying on a cot in a pantry near by eight feet cover with flies and his body enveloped in filth. He was then nearly dead. The neighbors employed a physician, who testified that the young man's condition was due to lack of proper food. The young man was removed to a boarding house by the neighbors and died in a few days.

Setback for Women Suffrage.

TRENTON, June 12.—Chief Justice Beasley decided yesterday that the legislature of New Jersey could not confer upon women the right to vote for any public officers. The question came before the court in connection with the contested election of a constable-elect in Bergen county. The right of male citizens to vote Justice Beasley holds cannot be extended any more than it can be abridged by legislative enactments. Under this decision women may be debarred from voting for school trustees and the like.

A Missing City Clerk.

VALPARAISO, Ind., June 12.—The disappearance of City Clerk J. Ross Martin, of this place, has created a sensation. Martin has been secretary of a guild association for several years and resigned to accept the position of deputy postmaster a month ago. He was to have turned over the association books last Saturday, but took a train for Chicago and has not since been heard from. It is said that Martin is short in his accounts several thousand dollars.

Tramps Held Up a Train.

NIAGARA FALLS, June 12.—A report has reached here that about 8 o'clock yesterday afternoon a gang of five tramps held up a Grand Trunk freight train near Jordan, Ont., just the other side of St. Catharines, and while Conductor Turner was endeavoring to keep them off he was shot and mortally wounded. The tramps were captured and lodged in jail at St. Catharines.

Jealous Women Fight to Kill.

HUNTINGTON, W. Va., June 12.—At Breedan, forty miles south of here, five young women got into a fight, and in the melee knives and pistols were used, and Mrs. Lizzie Maynard was killed and Jennie Morris mortally wounded. It is thought that the affair originated from jealousy.

Count Mikiewicz Married.

BALTIMORE, June 12.—Count Eugene De Mikiewicz, of Chinese concession fame, was married here last night to Miss Ethel Small, 18 years of age of Melvale, Baltimore county. The count said he had been married twice before. He and his bride left for Washington.

Assaulted by a White Brute.

NORFOLK, Va., June 12.—An 11-year-old daughter of W. E. Face, a prominent citizen, while picking berries was assaulted by an unknown white man in Ghent, a suburb of Norfolk. If caught by searching parties of citizens the man will probably be lynched.

Scranton Bricklayers Surrender.

SCRANTON, Pa., June 12.—The Scranton bricklayers who have been on strike since May 1 for an increase in their wages of five cents per hour, yesterday gave in to the contractors and will resume work at the old rate—thirty five cents per hour.

American Yachts Released.

DETROIT, June 12.—The American yacht Victor and Lucy Brooks, which were seized by a Canadian revenue cutter near Pelee Island for violating the fishing laws were released under bond and left Amherstburg for Sandusky.

Witness Muller a Prisoner.

NEW YORK, June 12.—Karl Muller, the principal witness in the trial of Dr. Meyer, was locked up yesterday in the house of detention. He is wanted as a witness in the trial of Mrs. Meyer. Muller was very angry at being made a prisoner.

Tired and Weak

NEW MEDFORD, N. Y., May 18, 1894.—I was tired and weak in the morning and I could not sleep on account of the pains in my back. I was troubled with sick headache all the time and thought I would try Hood's Sarsaparilla and have taken twelve bottles. Last summer I did a great deal of work and I thank Hood's Sarsaparilla for it. M. J. PEARL.

Hood's Pills cure indigestion.

Pimples, boils and other humors of the blood are liable to break out in the warm weather. Prevent it by taking Hood's Sarsaparilla.

MOROCCO'S RULER DEAD

It Is Probable That the Oriental Despot Was Murdered.

HIS SON CALLED TO SUCCEED HIM.

Prince Mohammed, However, Will Make a Protest Against the Elevation of Abdel Aziz and Trouble Is Feared—An Absolute Necessity.

TANGIER, June 12.—News received here from the interior confirms the report of the death of Sultan Muley Hassan. The sultan's son Mulai Abdul Aziz, has been proclaimed sultan of Morocco. The sultan died suddenly on June 7, at Tada, between Morocco and Casa Blanca. Measures have been taken to prevent anticipated disorders. Sensational rumors are in circulation as to the cause of the sultan's death and the populace is becoming excited. The belief prevails that the sultan was murdered.

According to the certificate of the doctors who attended upon the cause of the sultan's death was dysentery. He was conscious until the end and expressed the desire that Abdul Aziz should succeed him. There is danger of a revolt being organized by the brother of the deceased, who has been acting as the representative of the sultan at Fetes. The troops at Casa Blanca have accepted the new sovereign, but the allegiance elsewhere is doubted.

It is reported that Prince Mohammed will make a protest against the proclamation of his elder brother as sultan. It is the general opinion that Abdul Aziz is under the protection of the Vizier Sidi Gharnit, who several years ago presented the deceased sultan with a Circassian beauty, La Clarchia who became sultana and the mother of Abdul Aziz. Mohammed Ben El Arbi Di Teras, the minister of foreign

MULEY HASSAN.

affairs here, is also regarded as Gharnit's tool and it is believed that any news in regard to the rebellion among the tribes in the interior will be suppressed at Gharnit's instigation. Orthodox Mohammedans are anxiously waiting to hear what attitude the viceroy of Wazan will take in regard to the succession of Abdul Aziz.

The steamship Zeus which has just arrived here from Casa Blanca reports that there is much anxiety there on account of the disorderly attitude of the people as a result of the sensational rumors in circulation regarding the death of the sultan. Caravans arriving from Rabat have already been pillaged, and further disorder is apprehended. The foreign population of Casa Blanca is making vigorous appeals to the representatives of the foreign powers asking that warships be promptly sent for their protection.

The Spanish cruiser Conde Venadito has been ordered to proceed at once to Tangier. The transport Legazpi has been dispatched from Mazagan to Tangier to take on board the first installment of the war indemnity paid by Morocco to Spain on account of the Melilla affair. The outlook in Africa is regarded as gloomy, and reinforcements of troops have been ordered to Melilla and other Spanish settlements in Morocco.

The Spanish government has requested the European powers to act in concert in Morocco to maintain the status quo and avert a civil war. The powers, including France, have given notice of their acceptance of the suggestion.

His Shereefful majesty Sidi Muley Hassan, sultan of Fez and Morocco, Tafilet and Sus, has survived many announcements of his death, but the present reports seem to confirm one another, and it is probable that at last this delectable "ruler of the true believers" has met the death he so often had dealt out to others. Muley Hassan was born in 1831, the eldest son of Sultan Sid Muley Mohammed, and ascended the throne on the death of his father, on Sept. 23 1873. Muley Hassan was the fourteenth sovereign of the dynasty of the Alides or Filali, founded by Muley Achmet and the thirty-fifth lineal descendant of his uncle and son-in-law of the Prophet Mohammed and of the prophet's daughter Fatima.

Muley Hassan was a personage of some romantic interest but politically owed his importance to the jealousies of the European powers which hope to divide between them in these days, rather than to any special merit or ability of his own. Personally he was a fine specimen of the Oriental despot, a stalwart and handsome man wearing "the shadow'd livery of the burnish'd sun" with imposing and regal dignity. His court ceremonials were filled with barbaric splendor, and his authority was absolute over all his dominions so far as he was able to enforce it, his actual power over the more distant of his tribesmen being extremely vague.

After the attack of the Riff tribesmen on the Spanish fortress at Melilla last autumn, which was promptly punished by Spanish soldiers, the sultan agreed to pay the demands of Spain and he ordered the execution of several of the leaders of the rebellion. This action of the sultan was looked upon by the hill tribes as a humiliating backdown, and Muley Hassan lost the respect of many of his people. It was rumored some time ago that a movement was afoot to depose or remove "his most serene highness," and it is not improbable that the monarch of Morocco has been murdered.

What effect his death violent or otherwise, may have upon existing international conditions remains to be seen. At all events the "Morocco question" is likely to become acute for the moment at least, and to add one more to the long list of disputes between France and England.

Damages for Stolen Affections.

LONG ISLAND CITY, N. Y., June 12.—The suit of William C. Levitt against Augustus Maurice for $25,000 for the alienation of the affections of Levitt's wife was concluded before Judge Brown. The jury awarded Levitt $7,500 damages.

Fugitive Salvadorians Surrender Asked.

LA LIBERTAD, Salvador, June 12.—The newly organized government is making desperate efforts to secure the surrender of the refugees aboard the United States steamer Bennington. After making formal remonstrance against the extension of asylum to the late vice president and his staff, President Guzmerrez made a demand upon Mr. Pollock, the American consul here, for the surrender of the men, charging that these officials have been guilty of robbery and embezzlement. Consul Pollock informed the government that he could not meet the demand until instructed to do so by the Washington officials.

Minister Thompson's Vigorous Work.

WASHINGTON, June 12.—The annual correspondence of the department of state, just published, has a long and interesting chapter on the rise, progress and fall of the Brazilian revolution. One fact shown very clearly in this year's red book is that our minister to Brazil, Mr. Thompson pursued a vigorous policy in support of the rights of Americans. He was the first of the diplomatic corps to take a positive stand in the matter.

Broke Her Leg While in Second Place.

NEW YORK, June 12.—In the third race at Morris Park yesterday Atropin was in second place when the stretch was reached, St. Malin being first. His rider tried to make a short cut on the inside and as he did this the colt's leg broke short off at the fetlock joint. The colt was shot soon after he was taken to the stable.

Reported Lynching Probably True.

SWEET HOME, Tex., June 12.—Albert McElroy and Walter Hogden two white boys living at Williamsburg were attacked by Lon Hall and Bascom Cook, negroes. McElroy had his skull crushed in and cannot live. It is reported that the negroes were arrested but taken from the officers and hanged.

Erastus Wiman's Trial Begun.

NEW YORK, June 12.—The trial of Erastus Wiman began yesterday in the court of oyer and terminer before Judge Ingraham. Mr. Wiman is under two indictments for forgery. After the selection of a jury the court adjourned until 10:30 this forenoon, when Assistant District Attorney Wellman opened for the prosecution.

Colonel Tyson Released from Jail.

READING, Pa., June 12.—Colonel A. Harvey Tyson late of Governor Pattison's staff was released from jail here last night where he has been confined for one year. The charges against him, growing out of alleged irregular financial transactions, have all been settled and withdrawn.

President Gonzales Exiled.

PARIS, June 12.—A dispatch from Assumption, Paraguay, says President Juan G. Gonzales has been exiled and has gone to Buenos Ayres. Senor Maringo has formed a cabinet hostile to De Gondi's candidacy for the presidency. It is probable that Senor Egusguiza will be elected president.

Roeber Defeats Ross.

NEW YORK, June 12.—The Academy of Music was fairly well filled last night when the wrestling match for $250 a side between Ernest Roeber the Greco Roman champion and Duncan C. Ross took place. Roeber won the match in three straight falls, two of them catch as catch can.

TARIFF BILL PROGRESS

A Good Day's Work in the Upper House of Congress.

SIXTEEN PAGES DISPOSED OF

Republicans Make No Opposition to the Amendments to the Senate Schedule, Which Is Passed Through a Mill of Hour—Congressman English's Prediction.

WASHINGTON, June 12.—The brakes were taken off in the senate yesterday and more progress was made with the tariff bill than during any three weeks of the consideration of the measure. Three schedules, sugar, wool and the cotton and flax jute and hemp manufactures from paragraph 297 to 317 inclusive comprising nineteen pages in the bill were disposed of. The entire schedule, ten pages of the bill was finished in forty minutes. The Republicans made no opposition to the amendments proposed to this schedule, maintaining that the rates though reduced were arranged as to make the cotton schedule the most "scientific" ever prepared. Raw material for grain and cotton remains on the free list. The collar and cuff paragraph provoked considerable discussion and more or less amusement. Today the woolen schedule was taken up. Mr. Quay gave notice that before adjournment that he would when the schedule was reached, resume the speech he was delivering four weeks ago.

There was an air of languid listlessness apparent in the house and it was evident that the members were not in a working humor. The day was claimed by Mr. Heard chairman of the committee on the District of Columbia, but while several bills were considered no action was reached on any of them on account of the lack of a quorum.

Congressman English's Prediction.

NEWARK, N. J., June 12.—Congressman Thomas Dunn English is at his home in Newark. When asked by a reporter today if he thought the Wilson bill would pass said: The tariff bill, with all its amendments will be passed and be in operation by July 8, and the event may be celebrated with more or less enthusiasm next day.

Betrayed by His Shadow.

TRENTON, June 12.—An investigation was held at the state prison in the case of of Joseph Brooks the Jersey City burglar, who made an unsuccessful attempt to escape on Sunday. It was learned that Brooks cut the iron bars of the cell in which he was confined by means of a saw made of pieces of steel from the shanks of the prisoner's shoes. No blame is attached to any one. Brooks had been put into a dark cell for refusing to work and trying to create a revolt in the shoe shop against the prison fare. He had succeeded in cutting through both the inner door of iron and an outer one of wood when the attention of Deputy Keeper Leonard was attracted to the escaping convict by the latter's shadow. Brooks is now in irons.

Valuable Cargo of Fruit Destroyed.

NEW YORK, June 12.—The Atlas steamer Andes arrived from Port Limon, and was found to have come to port with her cargo, consisting of 18,000 bunches of bananas, representing a value of $20,000, completely destroyed. The steamer proceeded to sea to dump the spoiled fruit. The cause of the loss of the cargo was the failure of the patent ventilating fans in the hold.

Must Serve Out His Term.

ST. PAUL, June 12.—In the supreme court the case of ex-County Attorney Madigan, in the penitentiary for perjury, was passed on the lower court being sustained and Madigan will be committed to serve his full term. Besides perjury he was charged with suppressing indictments for cash.

Dr. Swift Will Survey the Heavens From Mount Lowe, in Southern California.

Southern California is soon to have an astronomical observatory which will rival the famous Lick institution on Mount Hamilton. Professor Lewis Swift's telescope, which has made the Warner observatory at Rochester famous, is now being erected on Echo mountain, in the Sierra Madres, near Pasadena. At this point it is expected that, owing to the exceptional advantages in the way of atmospheric conditions, splendid results will be obtained. The observatory will also have the advantage of being situated farther south than any telescope in the world, having a sweep of the horizon of nine degrees, an area such as has never before been possible in a glass of the kind.

DR. LEWIS SWIFT.

The glass itself is a superb 16 inch reflecting telescope, made in the best days of Alvan Clark, the veteran lens grinder of Cambridgeport, Mass. According to the maker's testimony, it is the best instrument he ever made of the size.

Next fall, when the Mount Lowe railway is completed, there will be erected on the summit of Mount Lowe a complete astronomical observatory at an altitude 2,000 feet higher than the Lick observatory. The telescope now on Echo mountain will be transferred thither, and the institution will be placed in charge of Professor Lewis Swift.

This celebrated astronomer was born at Clarkson, Monroe county, N. Y., Feb. 29, 1820. He was the son of a farmer with a large family and a small income and worked hard on the farm until, at the age of 13, a fracture of the hip rendered him lame for life. Then he attended school for three years, walking daily to the Clarkson academy and back, a distance of over two miles, on crutches. He finally fitted himself for a lecturer on scientific subjects and followed that vocation for several years.

In 1858 he read Dr. Thomas Dick's works on astronomy and became so enamored of the subject that he determined to devote his life to that science. With his own hands he made his first telescope and through it viewed the Donati comet. In 1862 he discovered the great Swift comet, which made him famous and caused his removal to Rochester, where the Warner observatory was erected and equipped for his use. Dr. Swift has now to his credit the discovery of nine comets and 000 nebulæ. His last great discovery was made in 1892, when he found the large comet of that year. Dr. Swift is very frugal in his habits and does not use tobacco or stimulants. He has been twice married, and of his five children four survive.

HOW HE MET HIS WIFE.

A Romance In the Life of Congressman William C. Oates.

Congressman William C. Oates, who is running for governor of Alabama on the Democratic ticket, likes to tell how he first met his wife. When the colonel's right arm was shot off in an action before Richmond, he was taken to a farmhouse, where he was nursed by a southern girl. After he was able to be about he felt that if he couldn't win the girl he wouldn't thank her for having saved his life. He made his confession, but she said nay.

"Never mind, colonel," said the fair one's mother. "Just wait for her," pointing to a laughing baby in the cradle.

Oates grew interested in the child as she grew up, and when she got to be a young lady he was very much in love.

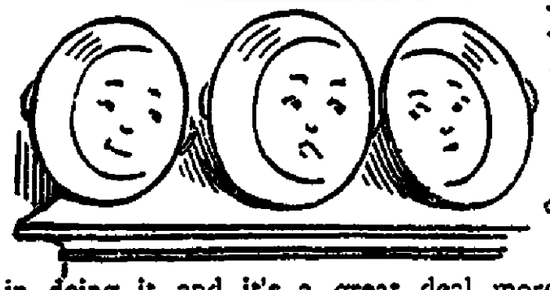
WILLIAM C. OATES.

He reminded her of the promise made over her cradle, and—well, they are regarded in Washington as an ideal couple, difference in age notwithstanding.

The congressman was born at Abbeville, Ala., Nov. 30, 1835. He was educated on the plantation and admitted to the bar in 1857. He entered the Confederate army as a captain in 1861, fought through the war and retired with the rank of colonel in 1864. After the war he found home of with one arm, no property and a fair knowledge of the law, but very little experience in the practice thereof. However, he set to work with a determination to succeed, and succeed he did, though the struggle was a hard one at first. His fees increased with his fame, and by the time he went to congress, in 1880, he had made $500,000 in the practice of his profession. Colonel Oates is now serving his seventh term in congress. Before going to Washington he served two terms in the legislature and was a member of the constitutional convention in 1875.

Argentine's Wheat King.

Argentine has a "wheat king"—an Italian immigrant of the name of Guazzone—whose land is in the south of the province of Buenos Ayres. His last harvest crop of wheat was grown on 66,720 acres.



Milk Pans,

and pails, and cans, and bottles (even baby's)—or anything else you want particularly on the table—can be kept sweet and wholesome in no end easier way by using Pearline. You'll save work in doing it, and it's a great deal more thoroughly done. Dairies and dealers use Pearline extensively. Just try it once, on your milk-ware or butter-ware—and then say if it isn't the most satisfactory way of cleaning. Pearline is the most economical thing you can use, too. You get so much more out of it.

Send it Back Peddlers and some unscrupulous grocers will tell you "this is as good as" or "the same as Pearline." IT'S FALSE—Pearline is never peddled, and if your grocer sends you something in place of Pearline, be honest—*send it back.* 393 JAMES PYLE, New York.

OUR NEXT PRESIDENT!

SOMEBODY will be the next President of the United States. The ARGUS and MERCURY gives to its readers the portrait and life story of the man who is

GOING TO BE ELECTED

To the Presidency at the end of Mr. Cleveland's term. It would give his name here but for the circumstance that he is lost among 256 of the greatest men and women of America, and it is as yet impossible to distinguish him exactly. In "America's Greatest Men and Women," the remarkable work now obtainable through the ARGUS and MERCURY, appears certainly the portrait of the next President, because there appear in that work the portraits of all the leading men and women of the country, and among them most certainly is the chief executive to be chosen in 1896.

"America's Greatest Men and Women."

AMERICA'S GREATEST MEN AND WOMEN.

AMERICA'S GREATEST MEN AND WOMEN.

Is assuredly the most valuable and most interesting publication of recent times. The marvel is that such a work has not been produced before. It does not wait for death. It gives the portraits—and these portraits are 10x14 inches in size and are reproduced from recent photographs of all the people described—and gives a complete and graphic biography of each person. Think of the value such a work as this must be to anybody! Think of what an educator it must be for even the children who read it! Was there ever issued a book likely to be more attractive in all ways or more of an absolute necessity? It can be obtained in a manner which has already been described in the columns of this paper, but which may be here repeated.

You Can Get This Work Only Through the Daily Argus and Mercury.

HERE ARE the TERMS.

IN EVERY ISSUE OF THE ARGUS AND MERCURY will appear a numbered coupon. Cut this coupon out and bring or forward it, together with TEN CENTS, to the Coupon Department of the ARGUS and MERCURY and there will be delivered or mailed to you one number of the series as above. The remaining parts can be obtained as issued, one each week, by the readers of the ARGUS and MERCURY under the same conditions.

SHE LOVES THE SEA.

MRS. CARNEGIE RECENTLY WON A VICTORY FOR HER SEX

She Is the First Woman Admitted to Membership In the Famous New York Yacht Club—Her Yachts and Her Palatial Home on Cumberland Island.

The advanced woman is very much in evidence nowadays. Hardly a week passes that she does not enter some door of the masculine domain that has hitherto been barred to her. The New York Yacht club, the famous organization that is known the world over as the custodian of the America's cup, has long kept its club companionway closed to fair applicants for admission, but Mrs. Lucy C. Carnegie of Pittsburg has finally convinced the club that there is no good reason why a woman should not be included in its membership.

The club did not yield instanter to the feminine hail. "Ship ahoy! Please let me come aboard!" but appointed a special committee to look into and report upon the advisability or otherwise of the club heeding the hail. This committee decided that the progressive spirit of the time demanded that old traditions be swept away, and that the club con-

MRS. LUCY C. CARNEGIE.

stitution be amended so that a woman who owns a yacht could enjoy the honor of flying the colors of the club. The constitution was amended so as to read:

Any woman owning a yacht is eligible for election to the club as a full member and shall upon election pay annual dues, but no initiation fee. Such membership shall continue only during the period of yacht ownership and carries only the following privileges:

The right to fly the club burgee, to have private signal registered with the secretary, to enter the yacht in club races and the use of the club stations and floats.

At a meeting of the club the amendment was ratified, and Mr. Carnegie was elected to membership. She is a sister-in-law of Andrew Carnegie, the millionaire iron manufacturer, and is about 45 years of age. She is the mother of nine children, and her late husband, Thomas Carnegie of Pittsburg, left her a large fortune and a magnificent home on Pennsylvania avenue in the Smoky City. Mrs. Carnegie has long been an owner of yachts and has cruised several seasons along the Atlantic coast in her steam yacht Missoe. The finishing touches are now being put on her new yacht Dungeness, named after her palatial summer home on Cumberland island, off the coast of Georgia.

The Dungeness is 135 feet long and has a graceful hull of steel. She is fitted up in luxurious style and is rigged as a two masted schooner, carrying foresail, mainsail, fore staysail and jib, but, except in case of accident, she will be propelled by steam.

Mrs. Carnegie's principal motive in applying for membership in the New York Yacht club was that she might be empowered to fly the famous burgee of the club and use its floats and stations on Long Island sound. She had no ambition, like many of her sisters who are not yachtswomen, to assist in sailing the ship of state, or, in other words, to take part in the club's politics and government, and no such privilege was granted her, although she may enjoy about all the other benefits that accrue to male members of the organization.

Cumberland island is the southernmost of the sea islands, famous before the late war for the cotton raised there and since the Revolution as the burial place of General Nathanael Greene and "Light Horse Harry" Lee, two patriots who made names for themselves during the great struggle for American independence. Mrs. Carnegie entertains in princely fashion in her great mansion at the southern end of the island. On the broad lawns the guests play tennis and croquet, and with bow and arrow enjoy the delights of archery. There is excellent fishing near at hand, where even a 40 pound channel bass may be caught now and then. Mrs. Carnegie's game preserves cover 14 miles of the island, and the woods abound in deer, bear, wildcat, raccoons and other furred game. There are thousands of quail about the place, and Mrs. Carnegie has had the place stocked with English pheasants. A few California quail were introduced some years ago with a fair degree of success presumably, though the preserve is so extensive that the California quail are not often shot.

Mrs. Carnegie is a fine shot, and few of her guests are able to bring down game with greater skill than she displays. Her daughter and some of the young ladies from Pittsburg who are occasional visitors at Dungeness have attained considerable proficiency with the rifle as well as the shotgun.

It is but a short distance from the house that the handsome boathouses stand, and the fleet there is one that most any boating enthusiast would envy. All in all, Dungeness is one of the most perfectly appointed country homes owned by an American.

In England many wealthy women own yachts, and they have long been admitted to various clubs. Now that Mrs. Carnegie has led the way on this side it is believed that many other American women will apply for membership in the prominent yacht clubs of the United States.

THE DECKERTOWN CONDENSERY.

Farmers Asked to Take Half a Cent Less Than the Exchange Price or the Concern Could Not Go on.

From our Coleville Correspondent

The directors of the condensery at Deckertown called a meeting of producers supplying the establishment with milk, to be held in the Council rooms, under the bank, at 2 o'clock, last Saturday afternoon, to see if the producers would take one-half cent off the New York Milk Exchange price for four months. If they would do so it was announced that the condensery would go on; if not, the concern would go in the hands of a receiver. Nearly all the producers met at the hour named. The condensery had been paying the Exchange price, less one-quarter cent a quart. The executive committee said they would have to take off one-quarter cent more in order to run the condensery.

The officers were asked to retire from the room that the producers might talk the matter over among themselves. Mr. Nelson DeWitt was chosen chairman, and after some debate, it was thought best to accept the proposal, and about forty of the sixty-five producers signed the contract.

The condensery is receiving about 220 cans of milk daily at Deckertown and about the same quantity at Hamburg. The producers, who did not sign the new contract, were asked to sign a release from the old contract, which they refused to do, so the Directors took until Tuesday, June 12th, to decide if they would run the condensery or not. As it is, it stands ten chances to run, against ten chances to shut down.

Why the Directors do not assess the stockholders or borrow money is a mystery. Why do they strike at the farmer, the backbone of this country? But the farmer is willing and obliging and he is only a farmer anyway.

At Least 500 Unemployed Men in the Ulster County Berry District

Marlboro (N. Y.) Correspondence of the Kingston Freeman.

Never in the history of fruit growing has there been such a large number of berry pickers in this town as there are this season. A careful estimate puts the number of unemployed men here at 500. This addition, or fifty per cent. of it at least, to the town's population, is not of the sort that reports good citizenship. Among the strangers are tough looking men who have the appearance of desperate characters. Housewives are bothered a little by this gang, who call for something to eat, while they spend what small change they have in beer drinking places. The West Shore Railroad people will no doubt make a raid one of these fine nights, for empty box cars are favorite resting places for "de gang."

Crop and Fruit Prospects—Brisk Times for Boatmen—Personal and Local Notes.

Correspondence ARGUS AND MERCURY.

—Corn is looking a little better since the first few days of sunshine. Potatoes are looking No. 1 with us at present, but the frosts of last week and the cold rains have ruined our apples, I think. Pears look quite promising, that is those that remain on the trees, a great many of them having fallen off.

—Boating is brisk on the canal, better so far than last season. Last year by July 4th a majority of the boats had not made over three trips, while this year a great many of the boats will have their fourth load in tide water by July 4th. I hear from pretty good authority that the 160 boats that were laid off in the spring will soon be running again as usual. This will make things look like old times on the D. and H. Boats have been been locked from 5 a. m., until 10 p. m., for a few days, in order to rush the business.

—Stephen Decker, John McDermott and Thos. Germain, of Wurtsboro, were in Haven, Sunday.

—We received a pleasant call from our old friend John Grimes, of Middletown, last Friday. He gave us a good report from your city. He also says he is a reader of the ARGUS and likes to hear from Haven.

—David Decker and Lewis H. Decker went on a fishing excursion to Yankee Pond, last week. Of course they had good luck, but Lewis says they would have done as well in Bashas Kill, but that there is more fun in going four miles to fish than in going down to the kill, it's too close to home.

—John Scheals, of New York, is boarding with Mr. E. F. Smith, at present. Mr. Smith's mother, of New Durham, is also visiting her son.

—Fred Jansen made a second attempt at driving a well, last week, and had better success than with his first trial, in the way of not striking a boulder, but he finds that he will have to go to quite a depth, as he has driven down over forty feet and struck no water. Mr. Jansen is a determined man. He says he will get water if he has to tap the Chinese Empire for it.

—Our new mail carrier, James Moley, Jr., commenced his duties Monday, June 11th. He carries the mail from the post office in this place to the railroad.

—Will Babcock and Miss Sarah Miller, of New Vernon, passed through here en route for New Vernon, Sunday.

—Working the highways seems to be the order of the day just at present.

—Miss Annie Henderson and her sister, Mrs. Hattie Barber, of Middletown, are visiting their parents at this place.

—Bruce Davidson has purchased all the land surrounding the swamp below G. A. Wamsley's, and will clear it up and convert it into a trout lake. With G. A. Wamsley's just above it, we will have to call them the twin lakes of the Beaverkill.

—We had frost nearly every night this month until this week.

THE PRESIDENT COMING TO MIDDLETOWN.

The Sick May Receive Medical Services Free of Charge.

The President and members of the European and American Staff of German, English, Irish, Scandinavian and American Doctors of New York city will be at the Russell House, Middletown, on

Tuesday, June 12th,

one day only. The sick and afflicted may consult them without charge during their stay.

If you are incurable they will tell you; therefore invalids must not take offence if they are rejected, as no case will be accepted unless there is a moral certainty of a cure being effected. These Doctors are graduates of the best universities of Europe and America; they are of the highest standing in the medical profession and have had unlimited experience in the treatment of all Chronic Diseases and Deformities. As the latest methods, instruments and appliances of the various schools of both the Old and the New World are familiar to and at the command of this staff of doctors, it is reasonable to believe that in ninety cases out of every hundred a cure can be effected, even when the patients have been given up as incurable by doctors who have had less experience. Do not be discouraged because your doctor cannot give you relief, or even if he tells you that you cannot get well, for it matters not what your disease may be, you can consult the doctors free, and, if curable, they will treat you, if incurable, they will give you such advice as will tend to prolong life and afford you the greatest relief.

The doctor will visit Middletown one day each month Office hours from 10 a. m. to 6 p. m.

—Mrs. John Birchall has been very ill with inflammatory rheumatism.

—Matarazzo, the shooter, seems to have thought country life was too much for him.

—Milk is selling at 1¼ cents; butter at 16 cents. How can farmers make it pay at almost starvation prices?

—All vegetation just laughs at the sun and warm weather, which we are in hopes will stay for a few days at least.

—Reports say that Franklin M. Olds has gone to England, presumably for a change of air. BREEZES.

How Enterprising Iowa Girls Helped the Church and Matrimony.

Down in an Iowa town, not so very far below the Minnesota line there is a progressive little church Some time ago it was found necessary to raise a certain amount for a certain purpose. The young ladies of the church took the matter in hand and after going over the many ways which had been tried in times past to raise money decided upon a new plan.

They decided to let the young men of the town who felt like doing something in the interest of the church hold their hands for a certain length of time for a given sum—50 cents for holding a girl's hand 25 minutes seems to have been about the average. It is said that the plan worked to a charm, and that the coffers of the church swelled perceptibly after the hand holding social was over

The man who is empowered to issue marriage licenses in that town ought to do a rushing business from this time on, for it was also proposed, and this met with instant favor among the young men, to sell kisses at the average of 75 cents. It is hinted that decorous hugs were to be provided at a uniform price of $1, coin of the realm.—Seattle Telegraph.

October Immigration.

Dr Senner, the commissioner of immigration at the port of New York, has collected some statistics for the month of October which are of interest in showing us what the United States is receiving from foreign countries Fifteen thousand four hundred and sixty-six immigrants were landed and brought with them $301,536 in cash. Only 2,650 of them had more than $30, and 5,881 had no trade or regular occupation.

There were 40 teachers, 21 musicians, 11 clergymen, 5 artists, 5 engravers, 3 lawyers 3 physicians, 2 sculptors, 1 actor, 858 skilled laborers 210 dressmakers and 50 barbers. Ninety-two were returned, of whom 21 were paupers and 1 a convict.

A Lilliputian Kansas Girl.

A baby girl weighing 2¾ pounds was born to Mr. and Mrs. George Grace at Hiawatha on Nov. 6 The father is an employee of the Missouri Pacific road and is a giant physically, weighing about 200 pounds The mother is also a woman considerably above the medium size. Both are young people, and this is their first child, which is strong and healthy, and the attending physician says it will live.—Kansas City Times.

The Grip.

An experience with this disease during all its past epidemics, warrants the bold claim that *Dr. King's New Discovery* will positively cure each and every case if taken in time, and patient takes the ordinary care to avoid exposure. Another thing has been proven, that those who have used Dr. King's New Discovery, escape the many troublesome after results of this disease. By all means get a bottle. It is guaranteed, and money will be refunded if no good results follow its use. Sold by McMonagle & Rogers.

TUESDAY, JUNE 12, 1894.

President Cleveland has been stopping incognito for a few days, as a result of the bad weather. He did a little business, yesterday, but saw no visitors. There is nothing alarming in his condition and a few days of partial rest are expected to restore him to his usual health.

The Adee line steamer Andes's cargo of 12,000 bunches of bananas, weighing more than a million pounds and worth, had the fruit been sound, from $1 to $1.50 a bunch, was condemned by a New York city fruit inspector, yesterday, and thrown into the sea.

Treasurer Swan, of the New York and New Jersey Bridge Company, says that the bridge will be built in such a substantial manner that trains will be run over it at a rate of thirty miles an hour. Time is recognized as an element of great value and the bridge company proposes to land passengers in the heart of New York more quickly than ferries can land them at West street.

New Jersey's Supreme Court decided, yesterday, that the law giving women owning property the right to vote for certain township officials is unconstitutional, since the right to vote can be conferred by the Constitution alone and under the Constitution, the privilege is restricted to male citizens. The decision was rendered in an action brought to oust from office the road overseer of Englewood township, who it was claimed was elected by the votes of women. Women have been voting at school elections in New Jersey for several years and the decision just rendered opens the door to innumerable legal contests.

Senator Murphy got his full share of compliments, yesterday, when the cotton and coal schedule of the tariff bill was taken up and passed. The protection accorded Troy's great industry, is thirty cents per dozen pieces and thirty per cent. ad valorem and is practically prohibitive. It amounts to fifty-six per cent. on goods of the best quality and to over 100 per cent on the cheaper grades in general use. The rates are among the highest in the bill and are defensible on no ground of public policy. Senator Murphy, however, saw nothing in the tariff but collars and cuffs and demanded outrageous rates of duty on them as a condition of voting for the measure and the Democratic leaders had no alternative but to pay him his price. To their credit, however, let it be said that they yielded grudgingly and are heartily ashamed of the necessity that forced them to stand and deliver.

A section of the Inheritance Tax law, passed in 1892, which was overlooked at the time, and the provisions of which have just become known, is playing the mischief with the business of the safe deposit companies in this State and is building up, at a corresponding rate, that of similar companies over the river in New Jersey. The section in question gives the County Treasurer or Comptroller the absolute right to inspect all papers in a safe deposit vault, leased by a person who has died, and any safe deposit company, which allows the legal representatives of dead persons to remove or interfere with these papers until the County Treasurer or Comptroller has inspected them, is liable to heavy damages. The New Jersey safe deposit companies are quoting this law in their advertisements and shrewdly urging the interest of wealth to put their valuable papers, securities, etc., where they will always be safe from examination by outsiders.

BELIEVERS IN LIFE INSURANCE.

According to the New York Commercial Advertiser, Senator Sherman and Senator Jones have their lives insured for nearly $500,000 each. Other Senators who carry heavy life insurance are Don Cameron, $200,000; McMillan, $150,000; Washburn, $150,000, and McPherson, $125,000. In the House, Mr. Harter, of Ohio, is insured for $150,000, and Mr. Kibbey, of Pennsylvania, for $100,000.

Hood's Sarsaparilla Cures Rheumatism

Heart Troubles, Deathly Sickness, and Fainting Spells.

Mrs. Harriet Bowman
Glenville, N. Y.

"I will tell you what Hood's Sarsaparilla has done for me in relieving rheumatism and heart disease. I have no doubt I would be dead but for Hood's Sarsaparilla. I had all these pains, numbness, and heart disease, and sometimes was I could hardly move. I was in bed for six weeks and could not turn myself. I was given up to die. I had taken many bottles of Hood's Sarsaparilla, and I can truly say it has done me more good than all other medicines I have taken. I am now able to do my housework, and I feel like a new woman. I am very grateful for what Hood's Sarsaparilla has done for me, and I shall always speak a good word for it."

WHY DON'T WE SELL AMERICAN MADE TOOTH BRUSHES? Because we don't know any such—genuine—the experiment has been tried but without success.
The best brush we can find is the CROWN TOOTH BRUSH—LONDON MADE. Why, we've sold them for twenty five years and are still selling them—and what a success they've been! We like goods of that kind which you can sell year after year and hold your trade.
Then for a cheaper tooth brush, we've some excellent Japanese-made brushes—clever people, those Japs!
Next comes a lot of French Tooth Brushes, all grades—right in price and quality as usual.
McMonagle & Rogers, Druggists.

EVERYBODY WISHES GOOD TEETH— ome people buy them. Other and more sensible people take good care of their own. They brush them freely with a suitable brush and use daily our IVORY TOOTH POWDER or IVORY TOOTH WASH, which sweeten the breath, make the teeth white and preserve them from decay

—Mr. H. S. Evans, the brush manufacturer, has removed from Canal street to the second floor of Wilkinson's stables, where he will have an abundance of room.
—One of those big locomotives for freight service, which the apt railroaders nickname "hog scalders," was shipped from the Rogers locomotive works, in Paterson, on Saturday, for the Susquehanna Railroad.
—It is due to the ARGUS and to the officers of the Traction Company to say that our correspondent "We" was "barking up the wrong tree" when he accused an electric railroad employe of the authorship of an article in Saturday's ARGUS which so disturbed his placidity. The ARGUS does not print communications as editorials and the officers of the Traction Company have never asked for the courtesy of our columns for the publication of communications for the advancement of their interests, or for any other purpose.

PERSONAL

—Mr. George B. Adams, of this city, was registered, yesterday, at the *Herald's* Paris office.
—Mrs. B. B. Williams and infant son went to Monticello, to-day, where they will spend the summer.
—Manager George Lea, of the Madison House, is much better and expects to be about the latter part of the week.
—Miss Grace Wales has issued invitations to a tea to be given at her home on Wickham avenue, Saturday, June 16th, from 6 to 8 p. m.
—Mr. Moses H. Van Keuren was taken suddenly and seriously ill, last Friday, while visiting his son, Will, at Stamford, Conn. He is somewhat improved but very weak. His daughter, Mary, is with him.
—Mr. Fred R. Garrison, the gentlemanly baggagemaster of the O. and W. at East the East Main street depot, had the misfortune, on Saturday last, to cut one his thumbs so badly that three stitches were required to close the wound.
—Mr. Bruce Smith, of Middletown, Conn., has been employed on the overhead wire work on the electric road. Mr. LeBarr, the Superintendent of Construction, has heretofore done this work, but he has his hands full with the work on the line to Goshen.
—Rev. M. Salley, rector of St. Mary's Church, Port Jervis, celebrated, Sunday, the eighteenth anniversary of his ordination to the priesthood. For five-and-a-half years he was assistant pastor of St. Mary's and in 1885, after having spent two years as assistant priest in a New York parish, he was returned to St. Mary's as its rector.
—Messrs. Fred S. Rogers and Geo. M. Millspaugh will start to-night for a bicycle trip to Philadelphia.
—Superintendent of Motive Power, Geo. W. West, of the O. and W., accompanied by Mrs. West and Misses Lila A. and Carrie Stewart went to Saratoga, yesterday afternoon, where Mr. West will attend the convention of the Master Car Builders' Association.

FELL FROM HIS TRAIN.

Baggage Master Richardson, of O. and W. Train 1, Risks His Life for a Baby Carriage—Not Seriously Hurt.

When Conductor Douglas, of O. and W. train 1, reached Campbell Hall, this morning, he found a telegram awaiting him from his baggage master, E. Richardson, stating that he had fallen from the open door of the baggage car between West Cornwall and Moodna Creek bridge.
A later telegram to the officials stated that while endeavoring to catch a baby carriage, which had started to roll through the door, he lost his balance and fell out, sustaining injuries about the head and hands, but that his wounds were not serious.
The owner of the baby carriage was a Middletown passenger, who became very much exercised when she found that the check she carried did not produce the carriage. The explanation of its disappearance did not satisfy her either, and she left vowing that the company would be made to settle.

TRACTION COMPANY MATTERS.

A Large Force at Work on Academy Avenue—No Intoxicants to Be Sold at Midway Park.

The Traction Company has a force of about seventy-five men engaged in laying its tracks on Academy avenue. The work will be completed in a day or two and then the men will be transferred to the Mechanictown road. It is proposed to increase the force to not less than 100 men before the end of the week.
The statement having been made in Mrs. Huyler's affidavit in the injunction proceedings that the company proposed to make a beer garden of Midway Park and Mr. Hinchliffe's connection with the company having been cited as proof of the fact that beer was to flow at the park in unlimited quantities, we are asked by Capt. Rockwell, superintendent of the electric road, to say that the company's regulations in regard to Midway Park provide that no intoxicating liquors shall be sold upon the grounds, and that it is the purpose of the company to make of it a high class family resort to which mothers may take their children, either day or evening, with perfect confidence that they will be free from all risk of annoyance of any kind.

WITNESSES IN THE HALLIDAY CASE

Ex-Sheriff Goodale, Dr. Talcott and a Hospital Attendant Subpœnaed.

Ex-Sheriff Goodale, Superintendent Talcott of the State Hospital and one of the attendants of that institution were among the witnesses subpœnaed, yesterday, to attend and testify as witnesses in the trial of Mrs. Halliday. Mr. Goodale had Mrs. Halliday in charge at the Newburgh jail, when she was arrested for stealing a horse and wagon, and Dr. Talcott, as Superintendent of the State Hospital and the attendant, who had Mrs. Halliday in charge during her incarceration in that institution, are of course expected to testify as to her mental condition.

STONED THE O. AND W. MILK TRAIN

Tramps, Angry at Being Ejected from the Train, Stone the Passenger Coach

When the O. and W. milk train arrived at Summitville, last night, two tramps, who were stealing a ride, were put off the train by the trainmen. As the train started out the tramps hurled several stones through the windows of the passenger coach, one of which passed within two inches of a passenger's head.
The men were seen and recognized late at night in the O. and W. yard and were arrested by Special Officer Wilson and Policeman J. R. Skelton.
This morning they were arraigned before the Recorder, and were taken on O. and W. train 1 to Bloomingburgh where they will be given a hearing before a Sullivan county justice.

Injured by Falling from a Scaffold.

The ARGUS was in error, last evening, in stating that Oscar E. Jones had been injured by falling from a scaffold. The unlucky man was Chas. A. Jones, of No. 51 Prince street. His right arm was broken, and he received many bruises about the head. He is resting comfortably at his home, to-day.

A Birthday Party.

Miss Mabel, daughter of Mr. Geo. S. Belding, gave a party to a number of her young friends, Saturday afternoon, the occasion being the anniversary of her birth.

MINNIE ADRIANCE IN JAIL.

Result of Sunday's Fight at the Summit—Valento Acquitted—Liboit, Minnie's First Husband, Charges Her With Bigamy.

Guiseppe Valento, the Port Jervis Italian, who was charged with assault in the third degree, upon the person of William Liboit, was given a trial, yesterday afternoon, before Recorder Bradner and jury. A great amount of testimony was offered by both parties, but the jury evidently thought the weight of evidence was in favor of the defendant and they accordingly pronounced him not guilty and the Recorder discharged him.
Liboit, however, made a complaint against his wife, Minnie Adriance, charging her with bigamy and also against her paramour, William Thompson, charging him with a like offense.
Both parties pleaded guilty and Minnie was sent to Goshen to await the action of the grand jury.
Thompson, who was under the influence of liquor when he entered his plea, was locked up over night in the lockup and was arraigned again this morning to plead.
Thompson waived examination and was held to await the action of the Grand Jury.

OBITUARY.

Victor M. Drake.

Victor M. Drake, a veteran journalist, eighty-two years old, died at Goshen, yesterday morning. He was born at Milford, Pa., in March, 1813. He had been connected with Orange and Sussex county journals for half a century.

William Flannigan.

William Flannigan, son of Patrick and the late Catherine Flannigan, formerly of this city, died at the home of his father, 152nd street and Eighth avenue, New York city, yesterday, aged twenty-three years. The cause of death was rheumatism and he had been sick about a year. He is survived by six brothers and two sisters, all of New York city.
This is the third death that has occurred in the family in about a year. The remains will be brought to this city on O. and W. train 1, Thursday, and the funeral will be from St. Joseph's Church, with Requiem High Mass, immediately after the arrival of the train at Main street. Interment in St. Joseph's Cemetery.

ORANGE COUNTY BIBLE SOCIETY.

Annual Meeting in Second Presbyterian Church, To-day.

The annual meeting of the Orange County Bible Society held in the Second Presbyterian Church, this city, to-day, was largely attended.
At the business meeting, this morning, the President, Rev. S. C. Hepburn, of Hamptonburgh, presided. Reports from the several town showed no abatement of interest in the Bible cause.
It was voted to separate the city of Middletown from the town of Wallkill and appoint managers for each.
Rev. William Ferrie, of Mongaup Valley, delegate from the Sullivan County Bible Society, made an interesting address.
At the afternoon meeting Rev. Dr. Hunt, of New York, representing the American Bible Society, spoke at length.
The nominating committee recommended the re-election of the old officers as follows:
President—Rev. S. C. Hepburn.
Vice-Presidents—Rev. W. McK. Darwood, Augustus Denniston.
Corresponding Secretary—Rev. S. W. Mills, D. D.
Recording Secretary—Rev. Floyd A. Crane.
Treasurer—C. E. Millspaugh.

VERY BASE INGRATITUDE.

A Tramp Steals the False Teeth of a Woman Who Had Given Him Food.

A lady residing on Knapp avenue, yesterday, gave a tramp his breakfast which the knight of the road ate on the back stoop. The lady is so unfortunate as to be required to wear false teeth, but is very particular to clean them several times every day, and on this occasion they were being soaked in a bowl of water, but when the tramp had left, the teeth were gone.
What earthly use the tramp can make of the teeth is one of the things that puzzles their owner and is really worrying her more than the pecuniary loss involved in the theft

INCIDENTS AND HAPPENINGS IN GOSHEN.

Death of Victor M. Drake—Last Game in the Bowling Contest—For the Flower Mission—Commencement Exercises of the Public School.

From our regular correspondent.

—The veteran newspaper man, Victor M. Drake, died at his home on West Main street, about 10 a. m., yesterday. He had been in a very feeble condition for the past several months, and for some time laid in a sort of stupor, barely breathing enough to show that life was present. He had been very active for a man of his years until the blizzard of 1888, when he undertook to go out in the storm and the exertion proved too much for even his strong constitution. The funeral service will be held from the Drake Block, to-morrow, at 10 a. m. Mr. Drake was born at Milford, Pa., in 1813, and for over half a century was connected with Orange and Sussex county papers.
—The Warwick Athletic Club's representatives will try to win the fifth game of the series in the bowling contest, from the Goshen Club, at the Club House, this evening.
—A room has been rented in Mrs. Hogarth's house, on Main street and will be open every Wednesday morning, beginning June 13th, to receive offerings of flowers for the Fruit and Flower Mission, of New York city. All contributions of flowers will be gratefully received by the committee.
—The commencement exercises of the Goshen public school will be held at Music Hall, Monday evening, June 18th. The exercises will consist of prize speaking, etc., and will begin at 7:45. A small admission fee, ten cents, will be charged to defray expenses.
—Frank Decker says there is no truth in the report noted in these columns, last night, that he is to be married to Miss Kate Conners.

Corner Stone of a Catholic Church Laid in Matamoras.

The corner stone of a Catholic Church to be erected in Matamoras, Pa., was laid, Sunday afternoon, with fitting ceremonies, by Rev. Father Finan, of Scranton, sent as a delegate by Bishop O'Hara, who was unable to be present. After an address by Father Finan, an eloquent address was made by Father Smith, of New York.
The Catholic societies of Port Jervis and many citizens were present at the exercises. A special excursion from Scranton, Honesdale and Hawley brought 200 persons to Port Jervis.

Preparing North Street for the Pavement.

Supt. Reed and a gang of men are busy excavating on North street for the new pavement. The Belgian blocks are being carted to Washington street, where they will be used in paving gutters. The dirt is also being carted to that street for filling and grading purposes, between Spring and Prospect streets.

Recorder's Court.

—Oscar Force was arrested again, yesterday, upon the old complaint of abusing and threatening his wife. The woman, however, was unable to present any evidence beyond her own statement, and as Oscar put in a general denial the Recorder discharged him.

Monthly Meeting of Epworth League.

At the monthly meeting of the Epworth League held, last evening, at St. Paul's Church, Miss Lena L. Fellows gave a reading entitled "Lend a hand." A paper was also presented by Miss C. Augusta Goodale on "What we should read and why."

Inquest in the Case of Track Walker Gaherin.

Coroner Decker went to Southfields, yesterday, and held an inquest in the case of Michael Gaherin, the Erie track walker, who was killed near Oxford, on Saturday. The jury rendered a verdict in accordance with the facts as published Saturday.

A Trolley Wire Fire in Newburgh.

A district telegraph wire became crossed with the trolley wire of Newburgh's electric railroad, Sunday, and the switch board in the Western Union office was set on fire and the wires burned off. The fire was extinguished before other damage was done. The railroad company will settle for the damage done.

Lunacy Commissioners at the State Hospital.

Goodwin Brown, Esq., Dr. Carlos McDonald and Hon. Henry A. Reeves Commissioners in Lunacy, are making an official visit to the State Hospital, to-day.

Grace Church's Parish Tea.

The Parish Tea of Grace Church, this evening, in the Assembly Rooms, promises to be the most successful of the series. The Daughters of the King have made a special effort for the occasion, and an excellent musical and literary programme has been provided. No charge for admission. This is the last gathering before Fall.

A VETERAN'S VERDICT.

The War is Over. A Well-known Soldier, Correspondent and Journalist Makes a Disclosure.

Indiana contributed her thousands of brave soldiers to the war, and no state bears a better record in that respect than it does. In literature it is rapidly acquiring an enviable place. In war and literature Colonel Powell, well known as a writer as "Sol," has won an honorable position. During the late war he was a member of Co. M, 2d N. Y. Cavalry and of the 13th Indiana Infantry Volunteers. Regarding an important circumstance he writes as follows:

"Several of us old veterans here are using Dr. Miles' Restorative, Heart Cure and Nerve and Liver Pills all of them are the splendidest I ever saw. In fact, we have never used remedies that compare with them. Of the Pills we can say they are the best combination of the qualities required in a preparation of that nature we have ever known. We have no words of praise for them. They are worth their weight in gold. They build up the system wonderfully. Every old veteran should try these remedies."

Col. Powell resides at Marion, Ind. Dec. 1, 1892.

Dr. Miles' Remedies are sold by all druggists on a positive guarantee, or will be sent by the Dr. Miles Medical Co., Elkhart, Ind., on receipt of price. Restorative, first bottle 55, express prepaid. Pills, 25 cents. Regularly contain neither opiates nor narcotic drugs.

Dying by inches.

The case of a man in Philadelphia who has a bullet in one of his lungs.

There is a factory in Brooklyn where 50 hands are employed in making cigars, and who has not there been gradually approaching a certain death.

In the case of consumption, Mr. Franklin Fletcher was a prisoner of suitable age and in good health when, one day, eighty years ago, a peculiar sort of feeling began to darken his cheek. In a few days the fancy had grown to alarming proportions, and was spreading to his arms, *leaving the terror for new points* with such violent pains through all the muscles of his body that he had to go to bed. A doctor was sent for, and in the meantime the pains subsided.

The rumor was denied and soon passed away, but the pains returned, and the unfortunate man noticed that he was becoming rigid. He thought he had a peculiar form of rheumatism and went to a physician for a thorough examination. When this was concluded, the following remarkable conversation took place:

"Well, doctor, it's only rheumatism, after all, isn't it?"

"Shall I tell you the plain truth?" asked the medical man.

"Why, yes, of course."

"Well, Mr. Fletcher, your case is hopeless. Your disease will end in death soon, and there is no known medicine on earth that can cure it."

The sick man said nothing, but his face was as white as death, and beads of cold perspiration stood out on his brow. The doctor nerved himself and continued:

"I'd best let you know the worst at once. You won't suffer much at first. These violent pains will soon subside, but every day you will find yourself getting stiffer. First the glands throughout your body will become hard. When you bend your limbs too much, it will seem like you are tearing your muscles. After awhile your muscles will become hardened, and your limbs will feel much heavier than formerly. At last you will have to keep your bed.

"Up to this stage your mental faculties and stomach will be practically unimpaired, but soon after you are too stiff to move about you will find your memory failing you. That will mean that the brain tissue is becoming ossified. The muscles of your heart, the very mainspring of life, will next stiffen. Then, Mr. Fletcher, make your will, if you have not done so previously, *I would advise you to meditate. You* have about 12 months to live."

Mr. Fletcher rose and, without one word, shook the doctor's hand and went home. There he has remained since and is not yet dead, though he is now using drugs by the bottle. Every day he becomes a little stiffer, a little less capable of using his will, and every day he expects a friend will pass before his eyes to prepare him for the physician pronounced his mind has begun to weaken, but the deepest sympathy for his friends, although he has given up hope. Almost every medicine has been tried, but all in vain. Indeed there was no reason to suppose that Mr. Fletcher would have departed—Philadelphia Times.

ALLIGATORS LIKE THIS FAMILY.

[illegible] Alligator Dick, Child and Baby. Dick of the Log. An Interesting Congressional Race. Dick is Dying over the Place a Log Up. Lem Barely Could Keep Beyond the Reach of Gnashing Jaws. Some Pranks of the Ladies. All Bobby Dick, as he was called, sat down on the banks of the Chickahominy river and supported by [illegible] fishing along. At any rate, only he and [illegible] found on the bank of the river, while [illegible] with a floating log off his back by an alligator. He left [illegible] and a little girl 3 years old.

One day this child wandered down to the river, and her mother arrived just in time to see her drawn under the water by the long, black snout of an alligator. Last year Dick, the namesake of his father and a man of 30, also went fishing in the river, and the day being warm closed his eyes for a nap, to be awakened by his leg disappearing down the throat of one of these reptiles. He would have been pulled off his log, but cast his arms about a tree near by and held on, but he had to sacrifice his leg, which the 'gator bit off just above the knee. It was the right one.

The end of the singular history of this family occurred last week. The other brother, Lem, was paddling down the river in a dugout when his clumsy craft was upset by an enormous alligator. A race then began for the shore between the man and the reptile, but just as Lem gained the bank and was pulling himself up to safety the alligator seized him by the right leg and drew him back. He called loudly for help, and his brother came running out of their cabin with a shotgun, and without waiting to take aim fired into the water. The bullet hit Lem in the other leg and broke the knee cap. He would have sunk now, for the reptile, which still had him, was for diving to get out of the way of the fusillade Dick was pouring into the river, but the drowning man caught at the dugout, which was floating bottom upward and within his reach, and resisted the 'gator's efforts to draw him under.

Dick now succeeded in killing the beast by a shot through its head and then got Lem to the shore. But he had to have both legs amputated, for the alligator had broken one into several pieces, splintering the bone terribly, while Dick's shot had shattered the bone of the other. It was to render that also a menace to his life if not removed. Lem declares his intention of sitting some distance back upon the bank of the river [illegible]

CASTORIA

for Infants and Children.

MOTHERS, Do You Know that Paregoric, Bateman's Drops, Godfrey's Cordial, many so-called Soothing Syrups, and most remedies for children are composed of opium or morphine?

Do You Know that opium and morphine are stupefying narcotic poisons?

Do You Know that in most countries druggists are not permitted to sell narcotics without labeling them poisons?

Do You Know that you should not permit any medicine to be given your child unless you or your physician know of what it is composed?

Do You Know that Castoria is a purely vegetable preparation, and that a list of its ingredients is published with every bottle?

Do You Know that Castoria is the prescription of the famous Dr Samuel Pitcher That it has been in use for nearly thirty years, and that more Castoria is now sold than of all other remedies for children combined?

Do You Know that the Patent Office Department of the United States, and of other countries, have issued exclusive right to Dr. Pitcher and his assigns to use the word "Castoria" and its formula, and that to imitate them is a state prison offense?

Do You Know that one of the reasons for granting this government protection was because Castoria had been proven to be absolutely harmless?

Do You Know that 35 average doses of Castoria are furnished for 35 cents, or one cent a dose?

Do You Know that when possessed of this perfect preparation, your children may be kept well, and that you may have unbroken rest?

Well, these things are worth knowing They are facts.

AN EXPERIMENT.

The Man Who Wants Justice Starts on His Travels.

John started out in the morning and said: "Today I am going to demand perfect justice from all men. I propose to have my rights today."

He boarded a street car. The conductor soon came around to collect the fares. John passed him 2 cents

"Five cents," said the conductor

"But I'm only going a mile," said John

"I don't care if you're only going a block, you pay 5 cents in this car," replied the conductor

Why, I rode the whole length of the line—six miles—yesterday and only paid 5 cents, and I don't propose to pay the same for riding one mile," said John

"I don't care what you propose," said the conductor, "you must either pay your 5 cents or get off"

Don't you see, man," said John, "how monstrously unjust and inequitable your action is? There is no justice in it It is a terrible outrage It is a monstrous imposition Shall a man pay the same for one barrel of flour that he does for six? Shall he pay the same price for one egg that he does for half a dozen? Shall he pay as much for riding one mile as for riding six? I refuse to pay!"

"Then you get off," said the conductor The car was stopped, and John was dropped on the sidewalk without further ceremony

"There is no justice in this world," muttered John as he picked himself up and started for the postoffice to mail a letter

"What will be the postage on a letter which I wish to send to the next town, a distance of 3½ miles?" asked John.

"Two cents, of course," replied the clerk at the stamp window

Why, I sent one to San Francisco yesterday for 2 cents," said John, and that was about a thousand times as far.

"Can't help that," said the clerk.

"Can't help it! Why, man, it's a monstrous injustice. Does this great American government propose to sanction such an iniquitous act as this? Does it propose to give the approval of its governmental indorsement to such a bare faced injustice as this?"

"I guess she does," replied the clerk.

"Then this government has entered into a covenant with sin. It has become a partner with iniquity, and I will have nothing to do with a thing so base I will carry my letter to the next town myself"

"Government is very sorry to lose your patronage," replied the clerk as John turned to go. "It counted on that 2 cents of yours to pay the national debt"

John stood outside the postoffice a long time, ruminating on the awful injustice that prevails in society

"Move on! Don't block up the sidewalk!" said a voice in his ear.

John looked up and saw a policeman

"Isn't this a free country?" asked John.

"Move on" said the policeman

"Am I injuring the sidewalk?" asked John.

Move on I say, and don't try to be fresh with me!"

Your request man is unjust I injure the sidewalk more by moving over it than I do by standing still I might stand here for a hundred years and not wear out the city I do not injure the municipality by simply standing here I won't break the paving stone or make the street cave in. I have no intention of carrying off the postoffice in my pocket I stand here for absolute justice Give me my rights!"

The policeman took him by the collar and hustled him across the street. "Now," said he "clear out. If I see you here again, I will run you in!"

John concluded he would not seek for absolute justice any more that day. He still holds to the opinion, however, that it is an excellent thing, but its price is too high for him.—New York World.

Here's a Tall Fish Story.

"This seems strange I'll admit," said the second mate of a coast-wise steamer in a west side saloon recently, "but it's true"

I was mate on board a sailing vessel plying between New York and Rio The day before we sailed on one occasion we noticed a school of minnows swimming about the kitchen porthole from which the cook threw out slops and scraps The fish remained with us day by day We were 60 days making Rio and would you believe it the fish had grown from minnows to 10 and 12 pounders when we at last threw anchor in Rio harbor Who's a——? I can prove it —New York Herald.

The Early Bird.

A country squire who farmed a portion of his own estate taking a walk early one morning before sunrise found a young woman busily at work digging up potatoes in one of his fields.

"What—at it so soon as this?" he good naturedly inquired. "I like this as a reward for your industry!" And so saying he slipped a half crown into her hand

When he got home he asked the steward the name of the girl

"We don't send any of our people to field labor as early as this," was the reply "The girl you have treated so generously is a thief."—Tit Bits

"I want this tooth pulled. I just can't stand this any longer"

"But, my dear sir, I am not a dentist."

"What in thunder are you?"

"I am an oculist. I attend to the eyes, not the teeth."

"Well, that's all right Go to work. This is an eyetooth that's bothering me."—Texas Siftings.

...sects, and that no matter how bloodthirsty mosquitoes and gnats might be, they would not go for blood through the scent of pennyroyal, and fishermen, going into localities where "punkies" and other insect pests abound, always provided themselves with a bottle of pennyroyal oil to rub on their necks, faces and hands. It seems a little odd that this simple means of securing immunity from the attacks of mosquitoes has not been known to or more generally utilized by women, many of whom suffer great discomfort when their delicate skins are punctured by a mosquito's sharp beak, but the explanation may be that the smell of the pungent herb is as disagreeable to many women as it is supposed to be to all kinds of insects.

Seventeen-year locusts are reported as very numerous along the Wallkill below Wallkill. A gentleman from this city, who was in that vicinity, Sunday, says that in one place of woods the locusts were hanging from the trees in swarms and on some bushes there were as many locusts as there were leaves. The waters of the kill were thickly dotted with locusts, which had fallen into the stream, while trying to fly across it. The boys have discovered that locusts are very good eating and every now and then, one of them would come to the surface and a floating locust would disappear. Dust fishermen might as well keep away from the Wallkill while the locusts haunt its banks, for until the bass tire of their new diet, worms, frogs, tourts, helgramites and other dainties will have no charms for basses palates.

Speaking about locusts, did it ever
